

WONDERFUL WORLDS

There are three different imaginary landscapes in Octav Botnar Wing.
Can you find them? Look on Level 2, 4 and 6.

These magnificent miniature landscapes were
created by artist Mariele Neudecker.

**Make your own miniature landscape inspired by
these artworks. Will your landscape have trees,
water, ice or mountains?**

All you need are:

- A shoebox**
- Coloured card**
- Scissors**
- Glue**
- Sticky tape**
- Photographs of landscapes**

**Ask an adult or play worker to help
you find the materials!**

WHAT YOU DO:

- 1** Cut out a rectangle from the shoebox lid.

- 2** Line the inside of the box with paper.

- 3** Make a background by cutting out shapes from the landscape photographs.

- 4** Cut out some scenery and stick it in front of your background by making a folded flap at the bottom.

- 5** Cut out some trees and fix them to the inside of the lid.

- 6** Put the lid on your box and see your landscape come to life!
