How to use eye drops (Easy Read)

	Wash your hands
	Sit on a chair
	Shake the bottle and take off the lid
	Look upwards towards the ceiling
	Keep your eye open and pull the bottom lid down
	Put one drop into your eye
	Blink 10 times
	Wait a few minutes before putting in another drop
	Put the top back on the bottle

Store the bottle in a safe place away from children

Store the bottle in the fridge if the label says so

If you have any questions, ask your pharmacist
