

Checklist for When Your Baby Has Been Born

- Call Fetal Cardiac Nurse Specialist on 020 7767 6711
To tell them your baby has arrived or email gos-tr.fetalcns@nhs.net

If you are going home from the maternity ward, not coming to GOSH soon after birth:

- Register baby with the GP
- Make sure your community midwife knows your baby has a heart problem
- Ask who your health visitor (**HV**) will be.
The **HV** takes over from the community midwife after 10 days.
- The **HV** is often linked to your GP practice.
- There may be a Paediatric Community Nurse in your area. Ask your local GP.
- Call Fetal Cardiac Nurse Specialist if you have any worries or concerns
