

Options for Adult / Mental Health / Learning Disability Registered Nurse

Can I work at GOSH... it's a Children's Hospital?

Yes, absolutely! As long as you are registered with the Nursing & Midwifery Council (NMC) and have a valid PIN. We welcome Adult/Mental Health/Learning Disabilities Registered Nurses and value the skills and experience you can bring.

What paediatric training will I receive?

As well as the standard Trust induction to GOSH, we offer a robust in-house education package, focusing on the paediatric elements of care and family centred approach we adopt.

What experience do I need?

You are not required to have any specific Paediatric experience, just an interest and passion in caring for children. The ability for you to work in certain will be dependant registered nursing ratios. However we are always on the look out for talented Nurses and will be happy to discuss your options with you.

What are my career development opportunities?

We are committed to developing and supporting all our nursing and care staff along their career pathway regardless of Band or NMC registration. You will enjoy the same career development as any other nurse within GOSH.
