

## **A Journey Around my Room - make a den**

You can make a den anywhere, on the floor, under a table or in your bed. You might need duvets and blankets and sheets or fabric, tissue paper, pegs or even cardboard boxes.

What kind of den are you making? What is your den for? Is it for hiding, for sleeping, for reading or for daydreaming perhaps?

Think about what kind of den you would like to make? Who or what is it for? What shape is your den? Does it have a door or window or a post-box? Could you invite someone into your den?
