

What do you get when you cross a Frog with a Crow?

A creative idea from GOSH resident artist Abigail Hunt

Try using the images from the 'Cut it Out' activity on the GOSH resources page – or using a selection of images from magazines to collage together some strange and wonderful new creatures and animals. Or you could try starting with a picture of an animal cut in half and then draw an alternative other half!

What happens when you cross a Zebra with a Cactus? Or a Bird with a Slice of Cake?

Try mixing animals with manmade objects - Can you put wheels on a worm or wings on a biscuit?

Can you think of new names for your strange new animals?

I tried a few out and came up with a Frow, a Zhoonail and a Rabbit Redbreast!

See what bizarre and wonderful new creatures you can make.
