

# R&I Bulletin

## Grants Advice Team

15th February 2022

**Want to know more about grant funding?**

**Got questions about a grant application?**

Contact the [Grants Advice Team](#) or reach out to [Laura Lucas](#)

The Grants Advice team are trialling out a new format for the Research and Innovation Bulletin. This is based on your feedback received in the survey last month.

Please do let us know what you think, and send any comments or improvements to [Grants.Advice@gosh.nhs.uk](mailto:Grants.Advice@gosh.nhs.uk)

## Funding Opportunities

All research funding applications **MUST** be [registered with R&D](#) at least **15 days before the funder deadline** to get costings and approvals in time for the funders deadline.

### [Mental Health Research Incubator awards](#)

**Funder deadline:** 04/03/22

**Funding available:** £1000

**Eligibility:** The awards are designed to support and promote early career researchers in mental health. They are looking to recognise and reward innovative impactful research, in four categories – collaborative involvement of patients and public, research in underserved areas, mental health innovation and early impact.

### [IHS Research into Headache in Children and Adolescents - Seed Funding Grant](#)

**Funder deadline:** 01/04/2022

**Funding available:** £ 8,396 (€ 10,000)

**Eligibility:** The International Headache Society is funding two awards of up to 10,000 Euro to initiate projects that study headaches in Children and Adolescents. Applicants must be members of IHS.

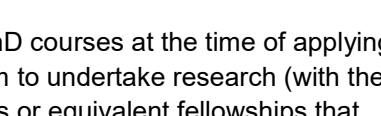

Projects should be exclusive to children and adolescents less than 18 years of age (this may be increased to 21 years of age if significant justification). They should consider diversity of gender, race and ethnicity in project development

Project should be new projects that have potential for additional funding from governmental agencies (e.g. US NIH) or other extramural funding agencies and include plans and strategies to pursue extramural funding

### [Pathological Society Jean Shanks Pre-Doctoral Research Bursary](#)

**Funder deadline:** 01/04/2022

**Funding available:** £40,000

**Eligibility:** Trainee members of the Society, based in Great Britain or Ireland, in a recognised Specialist Trainee 1-5 post in Histopathology. The bursaries cannot be used to fund the costs of research that will contribute to postgraduate research degrees, including Masters degrees.

Applicants should not be registered for MD or PhD courses at the time of applying or have received fellowship funding to allow them to undertake research (with the exception of NIHR Academic Clinical Fellowships or equivalent fellowships that provide salary support only for periods of research during clinical training.)

### [Call for Crick Attachments now open!](#)

**Funder deadline:** 04/04/2022

**Funding available:** Attachments offer UCL's researchers an opportunity to base all/part of their group at the Francis Crick Institute for a period of up to six years.

**Eligibility:** Whilst there, researchers can benefit from the ability to broaden their experience, pick up new skills and techniques and collaborate with leading biomedical research groups at the institute. They can also make full use of the Crick's state-of-the-art research equipment, technical advice and instruction available through the science technology platforms. Due to limits on spaces, applications are only being accepted for small groups (max. size 3) and sabbaticals. For more details, please visit the [UCL@Crick](mailto:UCL@Crick) website where you will find information about the scheme and UCL's partnership with the Francis Crick Institute. If you are interested in applying, please contact UCL's Crick Partnership Manager Andrea Hodgetts ([a.hodgetts@ucl.ac.uk](mailto:a.hodgetts@ucl.ac.uk)) to discuss your proposal in advance of submission.

### [Pablove Foundation - Powered by Pablove Seed Grant Program](#)

**Funder deadline:** 04/04/2022

**Funding available:** £ 73,538 (100,000 USD)

**Eligibility:** Researchers currently towards the end of their clinical fellowship or postdoctoral training or within five years of completion of training. Applicants must have an MD or PhD or equivalent degree. International applicants and institutions are welcome to apply for all grants; there is no residency requirement

### [HESI THRIVE Programme](#)

**Funder deadline:** 11/04/2022

**Funding available:** £ 36,769 (50,000 USD)

**Eligibility:** Principal investigator(s) must hold an MD, PhD, DVM (or equivalent degree).

Candidates for these degrees along with their Principal Investigator may apply. All candidates must have an accredited faculty, medical institution, or other research institute appointment and have the ability to conduct independent research with publications in established peer-reviewed medical and scientific journals. The programme is international.

### [Non-Communicable Diseases Risk Reduction in Adolescence and Youth \(Global Alliance for Chronic Diseases - GACD\)](#)

**Funder deadline:** 21/04/2022

**Funding available:** Scheme budget is €25 million.

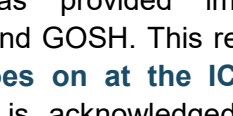

**Eligibility:** The topic is focused on implementation research about common risk prevention interventions targeting adolescents and youth to reduce the impact of non-communicable diseases (NCDs) in low- and middle-income countries (LMICs) and vulnerable populations in high-income countries (HICs). Proposals should focus on implementation science around evidence-based interventions that promote healthy behaviours, and that have the potential to profoundly reduce the risk of chronic diseases and multimorbidity. The GACD Alliance is particularly interested in interventions that reduce health risk and/or enhance a healthy lifestyle in young people, which the WHO defines as the period from ages 10-24.

### [BBSRC Discovery Fellowships 2022](#)

**Funder deadline:** 05/05/2022

**Funding available:** £ 500,000

**Eligibility:** Apply for a fellowship to carry out independent research within a host laboratory and gain leadership skills.

You must show that you have the potential to become a future research leader. Your project must be within BBSRC's remit.

Applicants currently studying for a PhD are eligible if they are expecting to have passed their PhD viva before 30 November 2022.

### [Please acknowledge the BRC in your publications!](#)

NIHR GOSH Biomedical Research Centre has provided important infrastructure funding for research at the GOS ICH and GOSH. This research infrastructure **contributes to all research that goes on at the ICH and GOSH**. It is very important that the NIHR BRC is acknowledged in all publications, including conference and meeting abstracts. Full details of how to acknowledge the BRC can be found on the [webpage](#).
