

Pedi MIDAS Questionnaire

The following questions try to assess how much the headaches are affecting day-to-day activity. Your answers should be based on the last three months. There are no "right" or "wrong" answers so please put down your best guess.

1. How many full school days of school were missed in the last 3 months due to headaches?

_____ (Max 92)

2. How many partial days of school were missed in the last 3 months due to headaches (do not include full days counted in the first question)?

_____ (Max 92)

Max 92

3. How many days in the last 3 months did you function at less than half your ability in school because of a headache (do not include days counted in the first two questions)?

_____ (Max 92)

4. How many days were you not able to do things at home (i.e., chores, homework, etc.) due to a headache?

_____ (Max 92)

5. How many days did you not participate in other activities due to headaches (i.e., play, go out, sports, etc.)?

_____ (Max 92)

Max 92

6. How many days did you participate in these activities, but functioned at less than half your ability (do not include days counted in the 5th question)?

_____ (Max 92)

Total PediMIDAS Score

_____ Max 276
