Please note: **Great Ormond Street Hospital for Children NHS Foundation Trust is unable to provide you with a breakdown of the information you have specified for each financial year.

The Trust believes that disclosure of the information would be likely to prejudice the commercial interests of any person, including the public authority (the "Trust") holding it. We have therefore conducted a public interest test to consider the balance of the public interest on whether disclosure would be outweighed under the consideration of Section 43 (Commercial Interests) of the Freedom of Information Act (FOIA) 2000.

The Trust is of the view that disclosure of information would, or would be likely to prejudice the commercial interests of both the Trust and third parties where there is a 50% chance that disclosure would prejudice the

competitive market for procuring future services. This is because our current contract is under consideration on whether to extend or re-procure. If we choose to re-procure then we need assurance that we shall obtain the most competitive price during the tendering process. The Trust also needs to respect third party commercially sensitive information leading up to the tendering process. We consider also that disclosing this information would be likely to prejudice the commercial interests of the Big Word in forthcoming NHS tenders to be operated by local Trusts.

The Trust acknowledges that disclosure of information would demonstrate a willingness to be transparent and possible costs sustained by the Trust as a publicly funded body. However, we do believe in maintaining fairness of the tender process where disclosure of providing a breakdown of costs requested could, potentially, lead to the public from benefiting in the competitive market place. Your request is therefore exempt under Section 43(2) (Prejudice to Commercial Interests) of the FOIA.

Please note:

The information we have provided under the Freedom of Information Act 2000 is the information held on the date your request was received by the Trust.

We hope the information provided is sufficient and helpful in answering your questions, issues or concerns. Should you have any further queries in relation to this request, please do not hesitate to contact the FOI Team and quote the above reference number on any related correspondence.
